

UPLMS PLATFORM

UP E-Learning Platform

E-learning is a growing industry and it is important to choose the right provider and the system. UP's Learning Management System (LMS) provides courses which can be assigned to company employees, and also enables companies to follow up and reporting on employee's curriculum and training success.

UP E-learning is internet based and uses SCORM platform. Companies who uses UP E-learning can log-on to the e-Learning portal, can choose from a wide-variety of courses or can choose a course which was assigned to them. Our learning platform also enables our clients, to add their own courses, such as Corporate Ethics or Corporate Rules and Regulations.
